12-Jul

	103#	105#	112#	113#	87#	88#	90#	92#	77#	73#
8:00										
8:30	Opening Ceremony									
9:00	Plenary Session									
9:30										
10:00			Break							
10:30			Mammal conservation	Bird conservation	Indigenous knowledge and conservation	Conservation capacity building	Environmental sociology	Desert conservation	Wildlife diseases and biodiversity	Applying the IUCN Best Practice Guidelines for Gap Analysis into Private and Public Sector Engagement: Tools, Opportunities and Experiences
11:00										
11:30										
12:00										
12:30			Workshop 7	Workshop 8	Workshop 9	Workshop10	Workshop11	Workshop12	Publications Committee Meeting	
13:00										
13:30										
14:00			Restoring Przewalski's Horses—Lessons Learned from In-situ and Ex-situ Conservation	Galliformes-Barometers of the State of Applied Ecology and Wildlife Conservation in Asia	How a Climate Agreement Can Complement Existing Conservation Law, Restore Ecosystems and Improve the Economy	Social Science	Environmental geography	Speed Setion Population Dynamics and Conservation Genetics	Conservation Practices in China	Integrated Protection and Restoration of Wetlands, Rivers and Subterranean Aquatic Ecosystems
14:30										
15:00										
15:30										
16:00			Break							
16:30			Restoring Przewalski's Horses—Lessons Learned from In-situ and Ex-situ Conservation	Galliformes-Barometers of the State of Applied Ecology and Wildlife Conservation in Asia	Sustainable agriculture	Plant conservation	Climate change	Speed Setion Protected area planning and design and Conservation capacity building	Asian Elephants in Fragmented Landscapes: Conflict or Conservation or Both?	Beyond Ideas: Using the Valuation of Ecosystem Services to Advance Conservation on the Ground
17:00										
17:30										
18:00										
18:30										
19:00										
19:30										
20:00										
20:30										
21:00										
21:30										
22:00										

13-Jul

	103#	105#	112#	113#	87#	88#	90#	92#	77#	73#
8:00										
8:30	Plenary Session:Giant Panda: the evolutionary dead-end?									
9:00										
9:30			Break							
10:00			Mammal conservation	Bird conservation	Drivers of the 21st Century Global Wildlife Trade: Key Challenges and Opportunities for Sustainability	Landscape ecology	Communications,outreach and education	Conservation genetics	Integrated Protection and Restoration of Wetlands, Rivers and Subterranean Aquatic Ecosystems	Cranes, Communities and Conservation: A Charismatic Bird Inspires Wetland Conservation Across Eastern Asia
10:30										
11:00										
11:30										
12:00			Break							
12:30			Workshop 13		Europe Section Meeting	Asia Section Meeting	Austral and Neotropical America Section Meeting		Oceania Section Meeting	Africa Section Meeting
13:00										
13:30										
14:00			Conservation Science for Giant Pandas and Their Habitat	The Asian Primate Crisis: Priorities and Actions	Combining Local and Scientific Knowledge to Monitor Central Asia's Ungulates	Disturbance ecology	Conservation in hotspots	Protected area planning and design	Forest Management and Wildlife Conservation from China and International Perspectives - Seeking Harmony of Wildlife Biodiversity and Human Demands for Forest Resources	Student Award Session
14:30										
15:00										
15:30										
16:00			Break							
16:30			Conservation Science for Giant Pandas and Their Habitat	The Asian Primate Crisis: Priorities and Actions	Population dynamics	Forest conservation	Ecology restoration	Freshwater conservation	Common Property, Biodiversity Conservation, and Climate Change	Student Award Session
17:00										
17:30										
18:00										
18:30								Social Science Working Group / Asia Section Joint Social		
19:00										
19:30										
20:00										
20:30										
21:00										
21:30										
22:00										

15-Jul

	103#	105#	112#	113#	87#	88#	90#	92#	77#	73#
8:00										
8:30	Plenary Session:Challenges for conservation in an age of scarcity – preventing wicked environmental problems becoming diabolical ones									
9:00										
9:30			Break							
10:00			Cost of Ensuring Biodiversity Security: Making the World Protected Areas Network Resilient to Climate Change	Biogeography	Conservation Challenges on the Roof of the World		Alien and invasive species	Marine conservation	Measuring Progress Towards Aachieving CBD Targets in the Lead up to 2010	New Approaches to Monitoring Biodiversity
10:30										
11:00										
11:30										
12:00			Break							
12:30			Workshop 14	Workshop 15	Social Science Working Group Meeting	Freshwater Working Group Meeting	Chapter's Roundtable	North America Section Meeting	UNEP	Student / Board of Governors Mixer
13:00										
13:30										
14:00			Conserving Southeast Asia's Imperiled Biodiversity – Scientific, Management, and Policy Challenges	Mammal Conservation	Recovery of endangered species		Community-driven conservation	Wetland conservation	urban area conservation	Balance, Harmony, Power: Evaluating Trade-offs in Resource Conservation, Conversion, and Extraction in Protected Area
14:30										
15:00										
15:30										
16:00			Break							
16:30	Members' Meeting									
17:00										
17:30										
18:00										
18:30										
19:00										
19:30										
20:00										
20:30										
21:00										
21:30										
22:00										

16-Jul

	103#	105#	112#	113#	87#	88#	90#	92#	77#	73#
8:00										
8:30	Plenary Session									
9:00										
9:30			Break							
10:00					Invertebrate conservation	Lessons Learned from the International Marine Conservation Congress and Future Directions in Marine Conservation	Scientists and managers: bridging the gap	Making Ecosystem Services Count: Real-world Progress from Africa	Long Distance Wildlife Migrations in Asia: Understanding and Conserving these Spectacular Ecological Processes	Conservation modeling
10:30										
11:00										
11:30										
12:00			Break							
12:30						Marine Section Meeting				
13:00										
13:30										
14:00					Inventory and monitoring	Environmental politics and policy	Community-driven conservation	Landuse planning for conservation	Fish Conservation	Restoration of Large River Ecological Functions for Biodiversity Conservation: Case Studies from China and USA
14:30										
15:00										
15:30										
16:00			Break							
16:30					Environmental or ecological economics	Alien and invasive species	Ecosystem/conservation area management	Speed session Mammal conservation and Conservation modeling	Amphibian and reptile conservation	Spatial ecology and conservation
17:00										
17:30										
18:00										
18:30										
19:00										
19:30										
20:00										
20:30										
21:00										
21:30										
22:00
